

CS333 Storage Systems

Getting to Know Each Other

- How would you like to be referred to in class (including pronunciation and pronouns)?
- What is your favorite language to program in?
- What is the most complex piece of software that you've written and what was the biggest challenge?
- What is one outcome you are hoping to achieve by taking this course?
- What concerns do you have about this semester or this course?
- What was one highlight from your summer?
